

Interdisciplinary Workshop on Rodent-Borne Zoonotic Diseases

CIDD

Center for Infectious
Disease Dynamics

April 11 – April 13

PennState
Huck Institutes of
the Life Sciences

Celebrating Ecology IGDP's 50th Anniversary:

MONDAY, APRIL 10
1:25 PM, AG SCI IND BLDG 118

Diversity, Density, and Disease Dynamics: How do competitors affect mechanisms of disease transmission?

Dr. Angie Luis

Associate Professor, Population & Disease Ecology
University of Montana

TUESDAY, APRIL 11
9:20 AM, MSC W257

Emerging Rodent Zoonosis: insights from community ecology, scaling, & beyond

Dr. Andy Dobson

Professor, Ecology and Evolutionary Biology
Princeton University

WEDNESDAY, APRIL 12
9:20 AM, MSC W257

Ecology of Lassa fever in West Africa: spatial, temporal and human risks

Dr. Elisabeth Fichet-Calvet

Implementation Research & Zoonotic Control
Bernhard Nocht Institute for Tropical Medicine

THURSDAY, APRIL 13
4:00 PM, 102 THOMAS

The Ecology of Plague: a disease of today which changed our history

Dr. Nils Christian Stenseth

Professor of Ecology & Evolution, University of Oslo
Past President of Norwegian Academy of Science & Letter
